PROFILE

My name is Elshodbek I was born on September 27, 2009 in Tashkent. At the moment, I am a programmer at the Uni-Pro Academy and I am increasing my experience even more.

WORK EXPERIENCE

Your Job Position here

Uni-Pro TECH   2024-2025

- Primary Responsibility or Achievement: Assisted in building and maintaining web applications, focusing on implementing features, fixing bugs, and improving user interface components.
- Notable Projects:
- Project E: Contributed to the development of a client dashboard with Vue.js, which streamlined user interactions and provided a more intuitive interface.
- Project F: Assisted in the implementation of automated testing and continuous integration workflows, leading to a more robust and reliable codebase.
- Skills Developed: Developed strong skills in front-end development fundamentals, including CSS preprocessors (e.g., SASS), version control (e.g., Git), and basic UI/UX principles.
- Challenges Overcome: Learned to efficiently debug and troubleshoot issues in a fast-paced development environment, which improved overall code quality and project delivery timelines.

Rubicon TECH   2025-2027

- Develop and implement interactive and dynamic user interfaces using HTML, CSS, and JavaScript.
- Utilize front-end frameworks and libraries such as React, Angular, or Vue.js to build scalable and maintainable web applications.
- Collaborate with UX/UI designers to translate design mockups and wireframes into functional code.
- Optimize web applications for performance and scalability, ensuring fast load times and smooth user interactions.
- Integrate front-end components with back-end services and APIs to create fully functional applications.
- Conduct code reviews and maintain high standards of code quality through best practices and continuous improvement.
- Troubleshoot and debug issues, ensuring cross-browser compatibility and addressing any UI/UX challenges.
